

PROPERTY INSPECTION/REMOVAL

Due to security issues at property location, interested party validated representatives are required to contact the custodian prior to entering the facility to inspect/remove property, and at times, they are not permitted to use phones. Therefore, successful receiving parties must communicate with the custodian in advance to make arrangements for inspection/removal and/or have a cell phone with them to contact them once they arrive at the secured location. Cameras are prohibited at the property location unless specifically coordinated with and approved by the custodian. Successful receiving parties are cautioned that they will be responsible for coordination and any expenses incurred with personnel, clearances, inspection, maintenance, loading, packing, movement and removal of the H-60A aircraft from the exact place on the property. All maintenance actions performed after the official transfer of ownership and any maintenance associated with the movement of the aircraft will be coordinated between the receiving party and SES-I. Successful receiving parties will have 30 days after official transfer of ownership to remove all property. The Government shall not be liable for personal injuries to, disabilities of, or death of any persons arising from or incidental to the inspection, purchase, removal, use or disposition of this aircraft. Receiving parties shall hold the Government harmless from any or all debts, liabilities, judgments, costs, demands, suits, actions, or claims of any nature arising from or incidental to inspection, purchase, use, or resale of this item.
